**Technidyne Announces new Agent for
Germany, Austria, and Switzerland**

Technidyne Corporation is pleased to announce that **EMTEC Electronic GmbH, Leipzig, Germany** is our new representative for **Germany, Austria, and Switzerland**.

EMTEC is an emerging technical company in the worldwide pulp and paper industry. Using ultrasonic technology and unique knowledge, **EMTEC** has positioned itself to provide solutions in the areas of gluability, printability, surface sizing, surface porosity, dimensional stability, particle charge, zeta potential, and tissue softness. **EMTEC** replaces Rycobel N.V. as Technidyne's official provider of sales and service in Germany, Austria, and Switzerland, effective immediately.

Technidyne Corporation is a world leader in providing quality control equipment to the Paper Industry. Founded in 1974, the company specializes in laboratory test equipment including the automated paper test system, **PROFILE/Plus™**, and color spectrophotometer, **Color Touch™**. Since its first international shipment to Spain in 1979, Technidyne has shipped products into 55 countries outside of the United States. A sister company, Technidyne Inc. in Canada and a network of independent sales and service agents and distributors in over 30 other countries assist Technidyne in providing equipment to the worldwide Paper Industry.

By creating stronger brand recognition and strengthening our alliance with other key suppliers of quality testing instrumentation, **Technidyne** will be better placed to serve the markets in **Europe**.

In order to enjoy the continued smooth operation of your **Technidyne** instrument(s) we recommend that you receive your parts and service from **EMTEC**, your **only** authorized **Technidyne Service Representative** in Germany, Austria, and Switzerland. Having the correct parts and service will ensure that your equipment continues to provide accurate test results, and your Warranty remains valid.
