

### **Technidyne Certified Service Engineer – Kevin O'Hare**

Kevin O'Hare of Poly-Test Instruments has become the latest Service Engineer to be certified to perform all service and calibrations on Technidyne Instruments. This knowledge allows Poly-Test to offer full preventive maintenance and calibration programs, as well as instrument and system installation and technical support. Kevin and his team will be able to provide local service, which means faster response times and lower maintenance costs for Technidyne customers in South Africa.

Since 2008 Poly-Test Instruments has been Technidyne's exclusive representative in South Africa. Poly-Test Instruments represents International manufacturers of production equipment, materials testing, quality testing and analytical instruments. The company's emphasis is on cost-effective quality testing in the manufacturing environment. In addition to supplying instrumentation and systems, the company also provides Project Management and a consultancy service backed by a fully equipped laboratory. Industries served include Pulp & Paper, Metallurgy, Automotive, Plastics, Rubber and Textiles.

With Head Office based on the East Rand (east of Johannesburg), Poly-Test Instruments provides products and solutions all around South Africa and Southern Africa.
