

February 2011

Technidyne Certified Service Engineer – Rico Kirstein

Rico Kirstein of **EMTEC** Electronic GmbH has become the latest Service Engineer to be certified to perform all service and calibrations on Technidyne Instruments. This knowledge allows **EMTEC** Electronic GmbH to offer full preventive maintenance and calibration programs, as well as instrument and system installation and technical support. Rico and his team will be able to provide local service, which means faster response times and lower maintenance costs for Technidyne customers in **Germany, Austria, and Switzerland.**

Since 2010 **EMTEC** Electronic GmbH has been Technidyne's exclusive representative in Germany, Austria, and Switzerland. **EMTEC** is an emerging technical company in the worldwide pulp and paper industry. Using ultrasonic technology and unique knowledge, **EMTEC** has positioned itself to provide solutions in the areas of gluability, printability, surface sizing, surface porosity, dimensional stability, particle charge, zeta potential, and tissue softness.

Technidyne Corporation is a world leader in providing quality control equipment to the Paper Industry. Founded in 1974, the company specializes in laboratory test equipment including the automated paper test system, **PROFILE/Plus™**, and color spectrophotometer, **Color Touch™**. A sister company, Technidyne Inc. in Canada and a network of independent sales and service agents and distributors in over 30 other countries assist Technidyne in providing equipment to the worldwide Paper Industry.
