

SPCI 2011 – Stockholm, Sweden

The SPCI for 2011 was held from May 17-19 in the beautiful city of Stockholm, Sweden. This event, which is held every three years, attracted many visitors and much interest from the paper industry both locally and internationally.

Technidyne was proud to exhibit several pieces of equipment, including the ColorTouch PC and a fully operational PROFILE/Plus system, which consisted of a Caliper, PPS, Grammage, and Tensile. Technidyne is represented in Scandinavia by Paper Test Equipment AB (PTE). The booth design and location, plus the interesting products on display, ensured that many people stopped by to have a look.
